THE SECRET BEHIND SIZZLING CELEBRITY BODIES

Curvaceous celebrities such as Kim Kardashian, Jennifer Lopez and Beyonce along with the recent booty babes- Pippa Middleton, can all be credited for the recent focus on perky derrieres. Whether these beautiful behinds are created by countless squats, plastic surgery or sculpting undergarments, this perky look has thrown a curve at the ideal body shape. New fashion styles and models reveal that shapely rear ends seems to be the new cleavage.

Give your figure a boost. Dr. Salzhauer has become renowned for his behinds built with the Brazilian Butt Lift procedure.

The Brazilian Butt Lift is a specific technique used for buttock enhancement, or gluteoplasty, which is the augmenting, lifting and sculpting of the buttocks. Recent advances in liposuction techniques and tools make this procedure a safe way to achieve more aesthetic body proportions with low risk and permanent results.

The Brazilian Butt Lift procedure is specifically designed to fill in the upper quadrant of the buttocks so that the final overall contour is more lifted and shapely rounded. The procedure involves the removal of unwanted fat through liposuction and then using that fat to fill in and create a curvier and more rounded rear-end.

Dr. Salzhauer has spent years perfecting his technique for a perfect looking posterior through the Brazilian Buttlift procedure. He has recently created a non-surgical Butt Lift alternative that has been predicted to "re-shape" the beauty industry.

IN THE MEDIA

THE ORANGE COUNTY REGISTER

Dr. Salzhauser was recently published in the OC Register- featuring a short overview of celebrities' decisions about breast implants, which are sometimes tasteful, and sometimes outlandish. Read Dr. Salzhauser's comments and his advice aimed at helping patients make better choices than some celebrities did.

GOOD THINGS COME IN SMALL PACKAGES

Pictured: Kate Hudson before and after getting small breast implants "Most stars often go larger than necessary, without considering the outcome. However, small implants are making a splash in Hollywood, and the ladies who get them are looking better than ever. **Kate Hudson, LeAnn Rimes, and Kelly Rowland** have all kept proportionality in mind, and the reward is clear—they look stunning," Dr. Salzhauser says.

IS BIGGER BETTER?

Pictured: Heidi Montag before and after getting large breast implants "Tori Spelling, Audrina Patridge, and Heidi Montag represent a growing number of celebrities who have opted to go too big when undergoing breast augmentation, resulting in an outlandish, obvious look," Dr. Salzhauser says.

DOWNSIZING, BUT UPGRADING THEIR LOOK

Pictured: Victoria Beckham before and after downsizing "Victoria Beckham, Sharon Osbourne, and Denise Richards all gave up their larger, but obviously augmented, breasts for a more normal look. As a result, they appear rejuvenated and healthy," Dr. Salzhauser says.

TESTIMONIAL

Stay in touch!

After a long search to find a great plastic surgeon, I met with Dr. Salzhauser! He was wonderful from the beginning - answering all my questions and guiding me through the procedure. Today, I have finally seen my new nose and I love it! I am so happy that I waited for a great surgeon to perform my rhinoplasty and liposuction. Not only will I recommend Bal Harbour to my friends and family, but for my next procedure I will be definitely coming back here! A huge thank you to Dr. Salzhauser and all of his wonderful staff for making my first cosmetic surgical experience a great one! Thank you! Thank you!
